

**ASE Provincial Articulation Working Committee
2020 Review of Activities**

Co-Chairs	Selkirk College	Alison Roy
	Camosun University	Jody Isaac
	Capilano University	Alison Hale

Due to the stay-home orders of spring 2020, a group of committee members joined together to develop an ongoing ad-hoc committee. Below is the review of what happened there and a general overview of programming for the fall 2020 term.

Our Ad-Hoc Committee came together after a collection of articulation committee members expressed interest in supporting one another and working together. We met weekly from May 9 to June 23. We shared how our institutions were going to deliver programs for the Fall term, expressed our concerns and heard what others are doing to solve the same issues.

These were our keys areas of focus:

- determine best practices for going online
- share in the development of the modules designed for online facilitation
- discuss challenges and processes in going on line.

To help us all move forward, we created tabs on our Artic. Moodle Page for anyone to post any resources or lessons or whatever else might be useful that we think relate well to online classes in the time of COVID. Feel free to borrow, adapt, share and contribute to this 'Repository'.

Please consider sharing on our moodle platform.

- Everything we share will be on moodle for you to use freely.
- You can post great resources on moodle under curricular topics.
- You can join any other team working on a full module using the Module Development Guide.
- You can develop another module to share with all.

Here is a summary of what institutions were planning as of June 2, 2020.

CAMPUS	DELIVERY	ENROLMENT	OUTCOME EXPECTATIONS	MODULE DEVELOPMENT
Camosun	Online 100% OPTION: F2F-1x per month	Capacity	75-80%	Food Literacy
CAP	EEA-In person on campus DEP- in person/one class a week online	Capacity	100%	<p>We have a Faculty working on developing specialized strategies and content for online learning with students with diverse abilities. The goal of this project is to address the need for additional strategies, technology and best practices for remote delivery specifically for the students in the Discover Employability Program. In addition, this project will capture the overall learning and resources to be shared through a creative commons license that will enable free distribution of the content. This project will continue to contribute to the momentum of sharing learning and resources in the field of adult special education in the province of BC and beyond.</p>

CMTN	2020F - Online 2021W – Hybrid	Max 13 students. (77% capacity)		
CNC	F2F	Max 8 students		Employment Based Skills Training and Essential Skills
KPU	Online 100%	Limited	Essence of key curricular area	Communication Community Building Personal Awareness?
NIC	Hybrid	Capacity		Computer Literacy Literacy
Selkirk	Online, some option for F2F	Capacity		Employability and Workplace Skills Effective Communication Skills Safety in the Workplace
TRU	Online 100%	Capacity		Practicum
VCC	Online for all except F2F for Food Services, and Career Awareness	Capacity	100%	Customer Service
COTR	Split between face to face instruction and TEAMS	Max 12 students		Education and employment based skills training
UFV	Fully online	Capacity max 16	100%
