General Guidelines for the Selection of Council, Committees, and Task Forces

Members will be selected in accordance with the terms of reference for the committee or task forces. The Executive Director, in consultation with the Council Co-Chair, Director and/or Chair of that committee, will make appointments.

BCCAT is committed to equity, diversity and inclusion. We believe that more diverse teams help us better support and serve the individuals, groups and communities with whom we collaborate. BCCAT is committed to having a diverse and inclusive membership for its committees and task forces.

The individuals should:

1. share the values and mandate of the Council;
2. have demonstrated an interest in and have had significant experience in relevant areas related to the purpose and objectives for the committee or task force;
3. have sufficient time to make a positive contribution to the work of the committee or task force; and,
4. be members of relevant constituent groups that may be able to provide helpful advice.

Depending upon the mandate of the committee or task force, the membership will, where reasonable, include representation from the following constituencies:

- 1. sectors;
- 2. large and small businesses;
- 3. lower mainland and non-lower mainland institutions;
- 4. students;
- 5. faculty;
- 6. administrators;
- 7. individuals who provide appropriate expertise relative to mandate of committee;
- 8. ministry or other post-secondary agencies as appropriate to the committee;
- 9. members of other relevant, non-BCCAT post-secondary committees or groups; and,
- 10. individuals currently unconnected to a sector, but with relevant and needed expertise
